

How to login to google classroom

(This will also enable your child to access the good apps for education such as google classroom, google docs, google slides and their google drive)

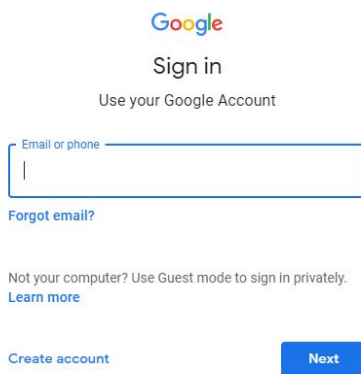

Step one

In a search engine (ideally chrome) but equally internet explorer/edge will work too.

Once you have opened google, look in the top right corner for th sign in:

Click on the sign in and the following will appear:

The children should know their username.

What they may not yet realise is that they have to add

@harwellprimaryschool.co.uk

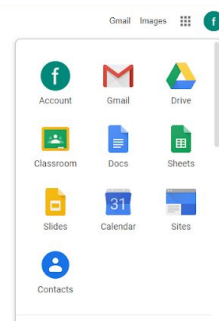

after their username.

They will then need to use their password.

Once the password has been logged in, the following should appear.

The array will allow your child to choose the app they need, including google classroom (they may need to scroll down through the options) .

Your child will have joined their classroom.

Within the classroom you will find the links to -
stream and classwork which is where your child will find the activities.

Stream

Classwork

People

s 2025

Login from ipads

You can get a free app from the app store

Your child can log in directly to the app which should give access to Google Classroom.

Remember with all of the accounts, please remind your child to log out to protect their password.
