

FC Learning Project – Around the World

Please continue to upload your home learning to Tapestry. We hope to see an update of your learning daily. However, as a minimum this should be at least weekly. Activities listed against days are for guidelines only. You do not need to do everything; you do not need to do things on the 'right' days. They are just ideas to support you.

Learning Project - to be done throughout the week

The project this week aims to provide opportunities for your child to learn more about countries and cities around the world. Learning may focus on different cultures and traditions, famous landmarks, food and clothing.

- **Flags** - Look at flags from around the world . Discuss which are your child's favourites and why? Ask your child to design and make their own flag using 2d shapes.
- **Food Tasting** - Find some different foods/fruits from around the world and taste each one. Your child can create a chart putting a tick next to each food they like and a cross next to the foods they dislike over the course of the week.
- **Pleasing Puppets** - Make your own Handa's Surprise character puppet.
- **Toys from Around the World** – Explore popular toys from around the world. Discuss how life is the same and how life is different in other countries. Can your child draw their favourite toy and write a sentence explaining why this is their favourite?
- **Where in the World** - Discuss with your child where your family comes from in the world. If you have them available, show your child photographs of where you, or their grandparents, grew up. This might be similar to where they live now or completely different. Encourage your child to think about the differences between the places.

Engineering Around the World – Bridges

- A bridge helps people move over obstacles like a river, a valley or a busy road. The world's longest bridge is in China and is 164.8km long. It would take more than two days to walk the length of this bridge. Do you have any bridges near your home? What do they look like?
- Try building a bridge out of paper, Lego or any other building materials you might have at home. Your bridge needs to be big enough for a toy car or small toy to travel over.
