Dear Parents/Carers,

Our new topic is based all around Harwell with the driving question ‘What makes Harwell special?’ We will be investigating this as a class but would also like to invite you to take part in an exciting home project.

We are looking for your child to take part in creating a futuristic Harwell made by the children themselves. At home, the goal is for them to develop a dream house they would want in Harwell when they grow up.

They need to firstly design their house on the template provided; labelling key features and writing a short description. I will give this out on the first day back. They can then start building their dream house at home using whatever materials that are accessible to them. The model must be easily transportable into school, so they will have to think about scaling their house down appropriately.

If your child wishes to create a diary/log of the building process with pictures or writing, then this would be fantastic to see as well. We are very much looking forward to seeing the future of Harwell from the children themselves.

If the model could be brought in for the outcome on Wednesday 26th May, that would be amazing.

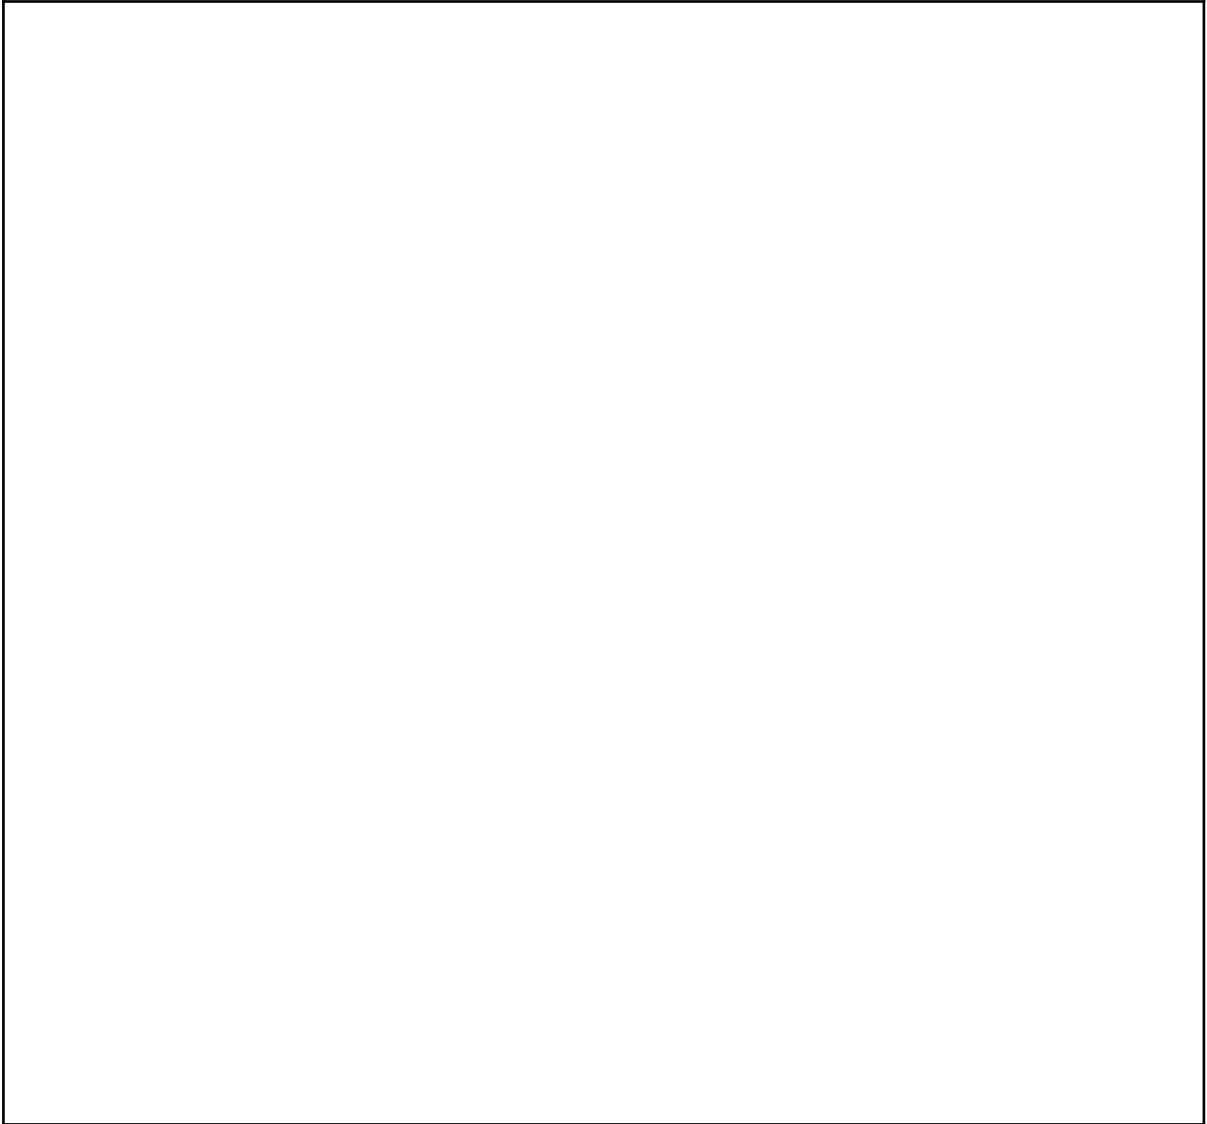

If you have any questions please feel free to ask.

Miss Thomson and the Year 1 Team

## Class 1's Futuristic Harwell
