Dear Parents/Carers,

Hope you have all had a wonderful Easter Break!

Our new topic for this term is based all around Harwell with the driving question 'What makes Harwell special?' We will be investigating this as a class but would also like to invite you to take part in an exciting home project.

We would like your child to take part in creating a Futuristic Harwell. The goal is for your child to develop their dream house they would want in Harwell when they grow up.

First, they need to design their house on the template provided. Labelling key features and writing a short description about their house. I will give this to them on the first day back. Then the children can then start building their dream house at home using whatever materials that are accessible to them. The model must be easily transportable into school, so they will have to think about scaling their house down appropriately.

If your child wishes to create a diary/log of the building process with pictures or writing, then this would be fantastic to see as well. We are very much looking forward to seeing the future of Harwell made by the children themselves.

If the model could be brought on the day of the outcome (Wednesday 25th May), that would be amazing.

If you have any questions please feel free to ask.

Miss Thomson and the Year 1 Team

Class 1's Futuristic Harwell
